Data Flow Diagram (DFD)

## Context Diagram/Level 0 (Highest Level)

Overall SiniGrind Web System as a single process. It connects external entities such as Customer and Admin/Staff.

Level 1 (More Detailed Breakdown)

Expands the system into 7 major processes: *Log-in, Register, Browse Products, Order/Checkout, Order Status, Sales Report, Manage Products, Manage Order, and Feedback.*

Level 2 (Even More Detail, if Needed)

LEVEL 2

Sub-Processors such as logging in, browsing products, selecting products, checking out, processing payments, and generating invoices. This connects to Customers,Products, Orders, Sales, Invoices databases.
